

Jerry Green

jerrygreen.dream@gmail.com

Killeen Texas United States

SUMMARY

Accomplished Full Stack Developer with over a decade of experience in designing, developing, and leading high-performance web applications and scalable microservices. Expertise in a diverse technology stack, including Python, Django, C#, ASP.NET, JavaScript, React.js, Vue.js, and modern DevOps practices. Demonstrated success in driving technology innovation, enhancing system performance, and leading cross-functional teams to deliver projects that exceed expectations. Passionate about utilizing cutting-edge technologies to solve complex problems and improve user experiences.

JOB SEARCH BASICS

KEYWORDS	Full Stack
CATEGORIES OF INTEREST	Software Development, Python, Java & Android, PHP, .NET
JOB TYPES	Employee, Freelance, Temporary
CAREER LEVEL	Manager
EDUCATION LEVEL	Master's Degree
DESIRED SALARY	9000 USD / Monthly
MILITARY STATUS	Retired

EXPERIENCE

Lead Full Stack Developer

[SoftElegance](#), Houston, Texas

From Feb 2021 to Current

Managed an 8-person development team to create a project management tool, improving project delivery efficiency by 35%.

Architected and developed high-performance microservices using Python and FastAPI, successfully transitioning legacy Java services and enhancing system scalability.

Spearheaded the adoption of cloud technologies, including AWS and Docker, to improve deployment processes and application reliability.

Designed RESTful APIs for data interchange, integrated third-party services with C# and ASP.NET, and employed Docker and Kubernetes for efficient deployment.

Orchestrated the design of RESTful APIs and the integration of third-party services, halving deployment times with Docker and Kubernetes strategies.

Led cross-functional collaboration to translate complex business requirements into technical solutions, achieving a 25% increase in application efficiency.

Senior Software Engineer

[NextGen Solutions](#), San Francisco, CA

From Nov 2017 to Oct 2020

Directed the development of web applications utilizing Django and React.js, resulting in a 40% increase in customer engagement.

Spearheaded the development and maintenance of an e-commerce platform, using Vue.js and Django, which led to a 30% uplift in transactions.

Enhanced application performance and security, significantly boosting user satisfaction through the implementation of secure payment processing.

Python Developer

[Innovative Software Solutions](#), Los Angeles, CA

From Mar 2015 to Sep 2017

Engineered Python-based microservices, boosting system performance and reliability for a leading Insurtech platform. Led the strategic migration to a microservices architecture, reducing downtime and deployment failures by over 60% and 90%, respectively. Developed and maintained critical Python applications for data ingestion and distribution, streamlining data management processes across the organization. Utilized a variety of technologies, including PySpark, MongoDB, and SQL, to build solutions that supported complex data operations.

EDUCATION

- Texas Tech University**
Master of Science in Computer Science
From Apr 2011 to Apr 2014
- Indian Institute Of Technology Delhi (IIT Delhi)**
Bachelor of Science in Computer Science
From Apr 2006 to Apr 2010

SKILLS

Python	Expert
JavaScript	Expert
TypeScript	Expert
C#.NET	Expert
ASP.Net	Expert
React.js	Expert
Vue.js	Expert
AngularJs	Expert
Analyzing AngularJs App	Expert
Django	Expert
Flask	Expert
Docker	Advanced
Kubernetes	Advanced
Jenkins	Advanced
AWS Certified DevOps Engineer “Professional	
Expert
